# A NAME YOU CAN TRUST...

As a world-class manufacturer, FOOTE-JONES provides the technology, expertise and support to perfectly integrate our products into your application. Whether your application requires a standard, modified standard or custom product, FOOTE-JONES is a name you can trust for your most rigorous applications.

## Leading Edge Engineering Team Brings You:

- Advanced product design for diverse applications
- Custom designed prototypes for evaluation and testing
- Support from inception to completion of the product design through manufacturing

## State-of-the-Art Manufacturing with Capabilities Including:

- Extensive computer numerically controlled (CNC) machines for milling, turning, drilling, boring, threading, grinding, hobbing and gear cutting of barstock, forgings and castings
- Equipment supported by Direct Numerical Control (DNC), Computer-Aided Design and Manufacturing (CAD/CAM), and computer-based systems for Enterprise Resource Planning (ERP)
- Microprocessor-controlled heat treating that carburizes and hardens, through-hardens, induction hardens, or tempers and anneals a variety of materials

## World-Class Quality is Assured By:

- Design simplicity and structural integrity
- Comprehensive systems, procedures and work instructions in accordance with ISO-9000 standards
- State-of-the-art testing equipment and laboratory

## Dedicated Customer Service Means Support From:

- Skilled customer service professionals committed to excellence in providing product information and prompt order processing

A multi-pallet machining center machines precisely and efficiently.

State-of-the-art testing equipment and comprehensive product testing ensures quality.
